

## Directions & Access

Alihi Lani #1, 2564 Hoonani Road #1, Koloa, HI 96756

Check in time is 2:00 unless otherwise arranged ahead of time. Many times we have people leaving the day you arrive and need the full time available to prepare for your arrival. Please do not plan to come early unless organized before hand.

### Directions:

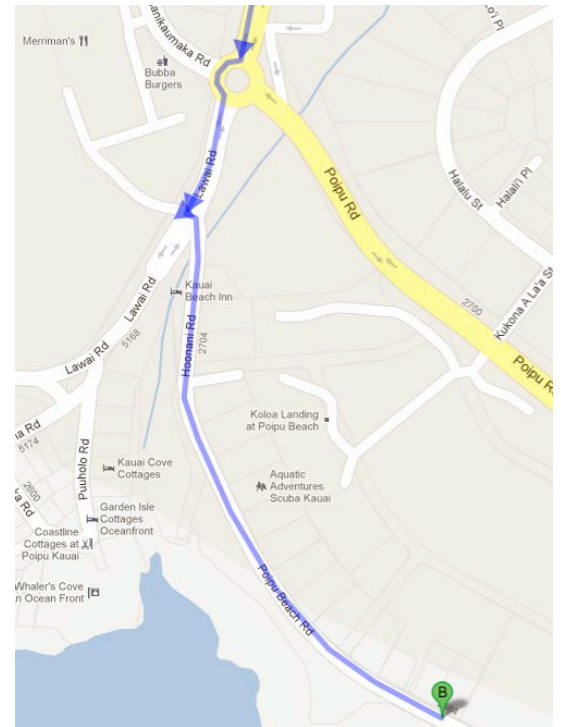

- As you leave the airport go straight and you will be on Hwy 570.
- Take this to the end and turn left onto Hwy 56.
- This will turn into Highway 50 past Lihue. Continue on Hwy 50 for approximately 7 miles.
- You will see a small road sign indicating Poipu and Koloa.
- Turn left onto Maluhia Road and you will be in the famous "tree tunnel".
- Go about 3.3 miles until this road ends. Turn right on Koloa Road and go a short distance to the first intersection (you will see a gas station on your left) and turn left onto Poipu Road. The small town you passed by is Koloa where there are restaurants and shops.
- Continue on Poipu Road for about 2 miles and look for the fire station on your left, you will come to a traffic circle. Enter the circle and exit at the first opportunity. There should be a sign indicating "Spouting Horn".

- Once you have exited out of the circle, you will turn left immediately onto Hoonani Road and cross over a small bridge.
- You will go down Hoonani until you see 2564 on your left. Often there is water in the driveway from rain or sprinklers. There is a sign that says "Alihi Lani" the buildings are painted a light beige color.
- If you reach Kapili Road, you went too far. If you reach the Sheraton, you went way too far.
- Turn into the driveway, the parking is at the rear, you can park in space #1 or any open un-numbered space. Of course we prefer you use #1 space first and leave the open spaces for others as needed.

### Access:

As you face the back of the building, our unit is on the first floor on the far right hand side.

To UNLOCK the door:

1. press 'SCHLAGE'
2. keypad should light up blue
3. put in the code:  
(Provided in your 7 day prior to arrival email)
4. door should unlock.

To LOCK the door

1. Press 'SCHLAGE'
2. Door should lock

Troubleshooting:

If you press on "Schlage" and the keypad does not light up - the door thought it was unlocked and just locked itself. So now try again to unlock.

If you are trying to lock the door and you push "Schlage" and the keypad lights up - it thinks the door is already locked. So just put in the code. Then push "Schlage" again and lock it.

- There should be an extra front door key hanging on a key hook just inside the front door on the left hand side. We do not recommend using the key unless something happens and the electronic door lock isn't work. Otherwise it gets confused if it is locked or unlocked.

# CLEANING AND CARE CHECK LIST – Alihi Lani 1

2564 Hoonani Road, Koloa, Hawaii 96756

## *Aloha and Welcome!*

**UPON ARRIVAL** - We maintain our home to the highest level possible to meet the expectations of our guests. Please report any problems as soon as possible. Please call Cynthia at 650 940 1067. If you don't reach us, leave a message and we will get back to you as soon as possible. We cannot help you or verify pre-existing damages if you wait until you check out. **If there are any problems during your stay, please let either of us know immediately - we do not consider this 'complaining'.** We will do our best to solve any problems right away. Also, *things take so long to get fixed* that we appreciate having as much time as possible to get repairs started. Thank you.

We reserve the right to notify the guest of necessary maintenance or repair work that may conflict with the stay. We do everything possible to do all work between guests but this is not always possible. If the guest requests, the manager will be present for the entire time the work is being done. We will try to notify the guest at least 24 hours in advance of any work unless it is an emergency. Thank you for your understanding.

**SMOKING** - No smoking is not allowed inside or on the lanai. Alihi Lani is now a completely NO-SMOKING property in the common areas.

No pets, excessive noise or additional overnight or day guests or events without prior written arrangement are allowed inside the house or on our premises. Please be considerate of all other residents at all times.

**TELEPHONE** - The phone number at the house is 808-742-6180. There is an unlimited calling plan on the phone for local and long distance to the U.S. and Canada. Other international calling is blocked from the home phones.

**INTERNET** - There is wireless high speed internet service. The network name should be AL1. The password is on the router. If the network name does not appear - check the modem for the assigned name and password. Occasionally with power outages our 'nickname' and pw disappear.

**KEYS** - We have a new keyless entry system. If it is not working, please let us know and we can let you know how to access the emergency key in the lockbox.

**SECURITY** - While Kauai is a safe place, we suggest that you lock all doors and windows when not in the unit or when you go to bed. We have installed a laptop style safe in the closet in the entry. The instructions will be inside the safe for your use. Non emergency Kauai Police Phone # is 808-241-1711

**BOOKS** - We have provided a nice collection of books on local birds, fish, plants and activities. We also try to keep the latest edition of the Ultimate Kauai Guidebook. Please do not take these books outside of the house to reduce the risk of them being lost or left behind in a rental car.

**OTHER** - we have *blow dryers* in the bathrooms - *re-useable shopping bags* for your convenience - 2 sets of *binoculars* for general nature watching! - a variety of *videos*: be aware some are 'R', most are PG-13 and some are G - hopefully something for everyone - a variety of sunscreen and lotion collection in the front bathroom cabinet to the right of the sink - take some leave some!

OCEAN BREEZES vs. AIR CONDITIONING - Give fresh trade winds and tropical breezes a chance! To keep a good cross breeze we recommend opening the front door. Also keep the front sliders open. Even in June and July, air conditioning is often not necessary.

We have air conditioning because we want you to be comfortable and happy! However, they are expensive to operate so we ask that you turn them off when you are not in the unit or if weather permits. **Never set to below 72 degrees** to avoid units from 'freezing up'. Thank you!

SUPPLIES - An initial supply of paper and soap products is provided. Check under sinks for extras. We have provided you with small bottles of shampoo and conditioner - these are local products made by 'Island Soap'. Please feel free to take them with you when you leave. Please leave the large hand lotion and perfume water spray bottles for the next guest.

INSECTS: As in all tropical climates, insects are present. We strongly suggest keeping all screen doors closed even during the day. Mosquitoes can sneak in and hide in dark places until nightfall. You might consider using a light personal insect repellent such as Cutter.

COCKROACHES - In Hawaii there are cockroaches - sorry about that! Anyone will tell you that they cannot be eliminated only controlled. If you spot EVEN one.... Please! Please! Let us know so we can spray immediately. The spraying will not harm you or your children. It dissipates quickly so if you want to leave, it is only for a short time. It is essential for us to know. Thank you VERY much for your help.

GECKO'S - (small lizards) are not pests; they are harmless to you and help catch insects. Look for them on the lanai ceiling late at night and making their little sounds.

SHOES- To honor and uphold a practical and nice Hawaiian tradition, please remove your shoes and leave them at the front door. If you have Kauai's red dirt on your feet or are returning from the beach, please remember to clean your feet before entering the unit.

WASHING MACHINE - We try to provide an allergy free environment for the comfort of all guests so we do provide laundry soap pods. No measuring needed. Please help us avoid repair costs to our washing machine by shaking out sand from towels and clothes before putting them into the machine. To speed up your drying time, remember to clean out the lint between each load in the dryer.

HURRICANE & TSUNAMI - If there is a hurricane warning, please listen to the radio or television for information. Evacuate as necessary. In the case of a Tsunami, leave the shoreline immediately and seek higher ground. If a "watch" is issued, a tsunami is possible. If a "warning" is broadcast, leave coastal areas immediately.

EMERGENCY SUPPLIES - In the utility closet above the washer and dryer there is a box marked emergency supplies. There is a case of bottled water and a box with candles, matches, and flashlights, batteries and an emergency radio. If you have a 'thirst' emergency - PLEASE replace the water for the next guest in case of a real emergency!

## IN THE KITCHEN:

PLEASE put all food away after eating. Store as much food as possible in the refrigerator. Remove trash and wash dishes often to reduce the risk of ants, roaches and other pests.

Condiments - we keep a various collection of condiments left by guests. Salt, pepper, other spices as well as fridge items like mayo, mustard, catsup, etc. Please feel free to use whatever you like. We cannot guarantee what will be there. But we suggest checking before you buy.

Cups - There are tall and short insulated cups with various tropical decorations. They have a lifetime warranty against breakage. So if something happens, please do not throw them away. Leave them out so we can return them. They are dishwasher safe.

Garbage disposal - please check to make sure no silverware has dropped into the disposal before running it. Also do not put grease, bones, glass, paper or sand into the disposal.

Children Cups and Bowls: In the cabinet to the right of the sink are plastic cups and bowls that children can easily get to.

Dining areas: To control the population of ants and other less than desired guests, please eat only in the dining area or outside. The dining room table has a view of the TV!

Freezer Mugs There are freezer mugs in the freezer. PLEASE do not put them in the dishwasher AND store them in the freezer UPSIDE DOWN. If not stored upside down, they can break!

Dishwasher We provide 2 in 1 dishwashing soap with jet dry. At times the dishes may still be spotty when the cycle is complete. If convenient, please do additional drying as necessary to keep excessive spotting from occurring.

### Garbage and recycling:

There is a central trash dumpster in the parking lot. I'm happy to say that we now have limited recycling: items that can be recycled are posted in the trash enclosure. Thanks for doing your part!

## OUTSIDE:

YARD MAINTENANCE - Our gardeners come on Wednesday afternoon. This does take about an hour or a little more. For your enjoyment and their convenience, try not to plan your quiet day around the pool for this time so they can keep our property beautiful!

GAS BBQ's - are located near the pool. Our personal BBQ tools should be found and returned to the drawer under the stove. There are spatulas, bbq brushes and long handled forks.

POOL - We have a wonderful new pool and pool deck. There are also large umbrellas at the pool for everyone's enjoyment. Please do NOT put these on the grass. They have a lock on the bottom and when unlocked they move easily on wheels around the pool deck. When not in use, please put the umbrella down to minimize damages from wind.

SUNTAN LOTION - Suntan oil will stain carpets and upholstery. Please apply these products outside or only in the tiled areas of the bathroom.

SAND - For rinsing off sand from you or your beach toys, there is a hose on the side of the driveway. Please try to rinse off before entering the house.

WET THINGS - Please do not leave any wet things on the floor or furniture. It takes a long time for the furniture to dry out and can cause mildew and musty smells. Also our beautiful wood floors cannot take prolonged wet items. Hanging wet towels on the lanai is against the association rules. I suggest the outside chairs. There is also a drying rack above the washer and dryer.

BEACH EQUIPMENT - There are beach towels in the closet next to the washer and dryer for beach use. Please do not use the bath towels on the beach. There are also a variety of beach chairs, portable chair umbrella's and boogie boards. Please do not bring wet or sandy beach equipment into the house. There is also a cooler with wheels and a small one - great for car rides.

RIP CURRENTS - There are rip tides at many beaches in Hawaii. Look for posted signs. The lifeguards sometimes put red flags on the sand to show where they are. Consult with them to determine the exact location of these currents. Should you get caught in one, swim parallel to the shore to get of it and then have a wave push you back to shore. **If in doubt, don't go out!**

SNORKEL GEAR - We have paid for each member of your group to rent a standard quality snorkel, mask & fin set for 1 day from Snorkel Bob's in Koloa. You will have to give them a credit card for security for the equipment and show them a copy of your rental agreement so that they can verify you are our renter (others have heard about our 'deal' and have pretended to be our renters). If something is lost, damaged or stolen it will be your responsibility. You can use your credit for any equipment rental. Their phone number is (808) 742-2206. Their address is: 3236 Poipu Rd. Koloa.

From the house, go back down Hoonani, turn right on Lawai Road, around the circle (2<sup>nd</sup> exit), then go toward Koloa Town on Poipu Road. They are down about 1.8 miles on the right hand side before you reach Koloa in a bright blue building. Melissa is the manager and knows me. If you have any trouble, ask for her or call me.

## **CHECKING OUT:**

1. Check out time is 10:00 a.m.
2. LATE CHECKOUTS: we will try to accommodate you. Ask about the options.

**Please wash and dry all beach towels.** Vinegar is provided for washing towels - put a small amount in the 'rinse' compartment. This helps keep musty smells out of the towels. Starting additional loads of towels is very helpful.

3. Please leave any used beds un-made, so we can tell what needs changing.
4. There are extra pillows for your use in the pillow shams. If you use these pillows, please do not return to the sham so we know they need to be washed.
5. Any un-used, un-opened food left will be donated.
6. Wipe down kitchen counters. Run disposal.
7. Please empty all trash & recycling when you leave.
8. Close windows and doors securely
9. Turn off lights and air conditioners. Leave ceiling fans on.
10. Turn off kitchen stove, oven, stereo and TVs
11. Check for any personal items you may have forgotten
12. Make sure you have left the keys on the hook.
13. Did you write in our visitor book? We would love to have you do that!

**Mahalo for your cooperation. We hope you had a great stay!**
