Outside shades – Instructions

These are multi-purpose shades. Sun, rain and wind! Most likely you will use them for sun, but if there is a storm, please put them down so that the furniture on the lanai doesn't get overly soaked. Same if there is any kind of heavy winds. Please put down.

Unit 1 has 3 shades in the front

1 remote control's all of the 3 shades.

Press the bottom blue button. The far left single button flashing is shade #1, 2nd light is #2 shade, 3rd button is #3 shade.

As you are standing inside the condo looking out - #1 is on the left most side that is in goes down in front of the walkway to the pool, #2 in the middle, #3 on the right side of the lanai

Once you have selected the shade you want to operate, press the down arrow to go down and the up arrow to go up.

Press 'MY' to stop the shade from moving.
